Description

This 2024 Vauxhall Corsa Electric Ultimate is a modern, fully electric hatchback that has been kept by only one owner from new. As the top-tier Ultimate trim, this vehicle combines the practicality of a compact car with the efficiency of an electric powertrain. It is equipped with a 50 kWh battery that offers a maximum range of 215 miles when new. Charging is straightforward, with a full charge taking 7 hours and 30 minutes using a standard 7kW home charger, while public rapid charging points can boost the battery from empty to 80 percent in just 30 minutes.

Finished in a striking Crimson Red, this model is designed to make daily driving more convenient and comfortable through its advanced technology. The inclusion of keyless entry and start allows for seamless access, while adaptive cruise control with an intelligent speed limiter helps maintain a steady pace on longer journeys. Visibility is enhanced by the IntelliLux LED Matrix headlights, which provide clear illumination in various conditions. Parking is also made easier thanks to the front and rear distance sensors, which assist with manoeuvring in tight spaces.

Location

Bentley Motor Group - Keighley
