Description

This 2020 Ford Kuga ST-Line X offers a practical and efficient driving experience, powered by a 2.5 litre petrol plug-in hybrid engine that meets Euro 6 emission standards. With a recorded mileage of 44,421 miles, this vehicle has been driven sparingly for its age. As an ST-Line X variant, it combines the well-known reliability of the Ford brand with a specification level designed to enhance daily usability.

The interior is equipped with several features that improve comfort and convenience, including heated driver and passenger seats and dual-zone electronic automatic temperature control to maintain a pleasant cabin environment. Manoeuvring is made simpler with front and rear parking sensors, while the power opening panoramic roof adds a sense of space to the interior. Connectivity is managed through the Ford SYNC3 navigation system, which supports Apple CarPlay, Android Auto, and Bluetooth integration. These features, combined with the vehicle falling into a low insurance group, make this a sensible choice for those seeking a well-equipped and economical family vehicle.
